About Me

Recent Full-Stack Developer graduate seeking to use my development experience in an entry-level position. Skilled with Javascript, React, Ruby on Rails, HTML, CSS. Independently built a travel & immigration web application that offers useful content and professional support to digital nomads and investors. I am also a MSc graduate in the area of financial management, with 10+ years of investment experience. I'm an entrepreneurial spirit; determined, independent, bold, goal-oriented, curious and organised. I love to travel and explore, currently living in Brazil (time zone GMT-3).
